The 30-second version

- You do better on narrower searches: #15 for "garage door opener repair".
- But you sit at #28 for "garage door repair" when searched from downtown St. Louis.
 - Compared with the top 3: they have 28–601 Google reviews vs your 13; you list no extra Google categories (they list 1–7).
- Quick fixes:
 1. Add 2–3 accurate extra categories to your Google profile.
 2. Ask every customer for a Google review with a direct link.

4. What I'd fix first

1. Add extra categories. You list only "Garage door supplier". The top 3 also use: Contractor, Door supplier, Garage builder, Material handling equipment supplier, Property maintenance, Repair service, Spring supplier. Add only the ones that are true for your business. (5 min)
2. Steer reviews to Google. Text your direct Google review link after every job and reply to every review. The gap to the top 3 is volume, not quality. (script included in Fix Pack)

No one can guarantee rankings. These fixes target what you control.

How this was measured

- Google Maps rankings: DataForSEO Google Maps API, desktop, English, Google location "St. Louis, MO" (downtown point), "garage door repair" to depth 105, pulled Thu Oct 8, 2026 ~4:42 PM ET. Opener and spring searches pulled the same way.
 - Rankings move by searcher location, device and time. This is a snapshot, not a guarantee.

- **Profile data** (rating, star breakdown, photo count, categories, hours, booking link, claimed status) comes from the same Maps results.
- **Website:** homepage HTML check plus Google Lighthouse 12 on mobile (simulated slow 4G, single lab run from our server). Real visitors may see different speeds.
- Anything marked **(verify)** is an inference we couldn't confirm from the data.
