Prepared Thu Oct 8, 2026 by Josh Finer, Finer Technologies · Searches run from downtown Nashville on Thu Oct 8, 2026, ~4:42 PM ET

The 30-second version

- **Your reviews are strong:** 4.7★, with 80 of your 90 reviews at 5 stars.
- **But you sit at #94 for "garage door repair"** when searched from downtown Nashville.
 - Compared with the top 3: you list no extra Google categories (#1 lists 7); your profile shows weekends closed while 2 of the top 3 list 24/7; your homepage title ("Top Garage Door Sales & Repair | Get a Free Quote Today!") doesn't mention your city.
- **Quick fixes:**
 1. Add 2–3 accurate extra categories to your Google profile.
 2. Tighten the homepage for "garage door repair" + city.
 3. Make sure your profile hours match when you actually answer the phone.

Distance from the searcher is part of how Google ranks Maps results, and you can't change it. What you can change: relevance (categories, services, website) and prominence (reviews, photos, activity).

3. Website (mobile)

Mobile speed (Lighthouse lab)	Performance 42/100 · SEO 100/100 · LCP 10.3 s · page weight 1,288 KiB

4. What I'd fix first

1. **Add extra categories.** You list only "Garage door supplier". The top 3 also use: Contractor, Door supplier, Garage builder, Material handling equipment supplier, Property maintenance, Repair service, Spring supplier. Add only the ones that are true for your business. (5 min)
2. **Website relevance:** put "Garage Door Repair" and "Nashville" in the homepage title; add LocalBusiness schema (address, hours, area served); add an "Areas we serve" section with the suburbs you actually cover; speed up the mobile homepage (lab score 42/100).
3. **Hours:** if you take calls evenings or weekends, list those hours. Profiles shown as closed can drop out of "open now" searches. (Only list hours you really answer.)

No one can guarantee rankings. These fixes target what you control.

How this was measured

- **Google Maps rankings:** DataForSEO Google Maps API, desktop, English, Google location "Nashville, TN" (downtown point), "garage door repair" to depth 124, pulled **Thu Oct 8, 2026 ~4:42 PM ET**. Opener and spring searches pulled the same way.
 - Rankings move by searcher location, device and time. This is a snapshot, not a guarantee.
- **Profile data** (rating, star breakdown, photo count, categories, hours, booking link, claimed status) comes from the same Maps results.
- **Website:** homepage HTML check plus Google Lighthouse 12 on mobile (simulated slow 4G, single lab run from our server). Real visitors may see different speeds.
- Anything marked **(verify)** is an inference we couldn't confirm from the data.
