Prepared Thu Oct 8, 2026 by Josh Finer, Finer Technologies · Searches run from downtown Columbus on Thu Oct 8, 2026, ~4:42 PM ET

The 30-second version

- **Your reviews are strong:** 4.9★, with 190 of your 199 reviews at 5 stars.
- **But you sit at #21 for "garage door repair"** when searched from downtown Columbus.
 - Compared with the top 3: #1 and #2 have 665–3,325 Google reviews vs your 199; you list no extra Google categories (#1 and #2 list 2–3); your /book-now/ page isn't linked as a booking link on your Google profile (2 of the 3 have one).
- **Quick fixes:**
 1. Add 2–3 accurate extra categories to your Google profile.
 2. Link your existing booking page from your Google profile.
 3. Add 30+ real job photos (you have 13).

Distance from the searcher is part of how Google ranks Maps results, and you can't change it. What you can change: relevance (categories, services, website) and prominence (reviews, photos, activity).

3. Website (mobile)

Suburb/area coverage	⚠ homepage mentions 0 nearby suburbs

Mobile speed (Lighthouse lab)	Performance 40/100 · SEO 100/100 · LCP 25.4 s · page weight 5,943 KiB

4. What I'd fix first

1. **Add extra categories.** You list only "Garage door supplier". The top 3 also use: Door supplier, Garage builder, Repair service. Add only the ones that are true for your business. (5 min)
2. **Add your booking page to your Google profile** as the booking/appointment link. (5 min)
3. **Photos: 13 → 50+.** Real before/after jobs, trucks, team and shop, uploaded steadily rather than all at once. (ongoing)
4. **Steer reviews to Google.** Text your direct Google review link after every job and reply to every review. The gap to the top 3 is volume, not quality. (script included in Fix Pack)
5. **Website relevance:** change the main headline (H1) to name the service and city; add LocalBusiness schema (address, hours, area served); add an "Areas we serve" section with the suburbs you actually cover; speed up the mobile homepage (lab score 40/100).

No one can guarantee rankings. These fixes target what you control.

How this was measured

- **Google Maps rankings:** DataForSEO Google Maps API, desktop, English, Google location "Columbus, OH" (downtown point), "garage door repair" to depth 147, pulled **Thu Oct 8, 2026 ~4:42 PM ET**. Opener and spring searches pulled the same way.
 - Rankings move by searcher location, device and time. This is a snapshot, not a guarantee.
- **Profile data** (rating, star breakdown, photo count, categories, hours, booking link, claimed status) comes from the same Maps results.
- **Website:** homepage HTML check plus Google Lighthouse 12 on mobile (simulated slow 4G, single lab run from our server). Real visitors may see different speeds.
- Anything marked **(verify)** is an inference we couldn't confirm from the data.
