The 30-second version

- **Solid base:** 5★ across 19 Google reviews.
- **But you sit at #43 for "garage door repair"** when searched from downtown Milwaukee.
 - Compared with the top 3: they show 41–169 profile photos vs your 6; your homepage title ("Garage Builder in Milwaukee, WI") doesn't mention "garage door"; no LocalBusiness schema on your homepage.
- **Quick fixes:**
 1. Add 30+ real job photos (you have 6).
 2. Tighten the homepage for "garage door repair" + city.

4. What I'd fix first

1. **Photos:** 6 → 50+. Real before/after jobs, trucks, team and shop, uploaded steadily rather than all at once. (*ongoing*)
2. **Website relevance:** put "Garage Door Repair" and "Milwaukee" in the homepage title; change the main headline (H1) to name the service and city; add LocalBusiness schema (address, hours, area served); make the phone number a tap-to-call link.

No one can guarantee rankings. These fixes target what you control.

How this was measured

- **Google Maps rankings:** DataForSEO Google Maps API, desktop, English, Google location "Milwaukee, WI" (downtown point), "garage door repair" to depth 79, pulled **Thu Oct 8, 2026 ~4:42 PM ET**. Opener and spring searches pulled the same way.

- Rankings move by searcher location, device and time. This is a snapshot, not a guarantee.
- **Profile data** (rating, star breakdown, photo count, categories, hours, booking link, claimed status) comes from the same Maps results.
- **Website:** homepage HTML check plus Google Lighthouse 12 on mobile (simulated slow 4G, single lab run from our server). Real visitors may see different speeds.
- Anything marked **(verify)** is an inference we couldn't confirm from the data.
