The 30-second version

- **Your reviews are strong:** 4.7★, with 21 of your 23 reviews at 5 stars.
- **But you sit at #4 for "garage door repair"** when searched from downtown St. Louis.
 - Compared with the top 3: you list 4 extra Google categories (#2 lists 7); your profile shows weekends closed while 2 of the top 3 list 24/7; you don't appear in the top 85 for "garage door spring repair".
- **Quick fixes:**
 1. Add 2–3 accurate extra categories to your Google profile.
 2. Tighten the homepage for "garage door repair" + city.
 3. Make sure your profile hours match when you actually answer the phone.

4. What I'd fix first

1. **Add extra categories.** You list only "Garage door supplier". The top 3 also use: Contractor, Door supplier, Garage builder, Material handling equipment supplier, Property maintenance, Repair service, Spring supplier. Add only the ones that are true for your business. (5 min)
2. **Website relevance:** put "Garage Door Repair" and "St. Louis" in the homepage title; change the main headline (H1) to name the service and city.
3. **Hours:** if you take calls evenings or weekends, list those hours. Profiles shown as closed can drop out of "open now" searches. (Only list hours you really answer.)

No one can guarantee rankings. These fixes target what you control.

How this was measured

- **Google Maps rankings:** DataForSEO Google Maps API, desktop, English, Google location "St. Louis, MO" (downtown point), "garage door repair" to depth 105, pulled **Thu Oct 8, 2026 ~4:42 PM ET**. Opener and spring searches pulled the same way.
 - Rankings move by searcher location, device and time. This is a snapshot, not a guarantee.
- **Profile data** (rating, star breakdown, photo count, categories, hours, booking link, claimed status) comes from the same Maps results.
- **Website:** homepage HTML check plus Google Lighthouse 12 on mobile (simulated slow 4G, single lab run from our server). Real visitors may see different speeds.
- Anything marked **(verify)** is an inference we couldn't confirm from the data.
