The 30-second version

- **You do better on narrower searches:** #8 for "garage door spring repair".
- **But you sit at #10 for "garage door repair"** when searched from downtown Cincinnati.
 - Compared with the top 3: no booking link on your Google profile (1 of the 3 has one); they show 58–250 profile photos vs your 18.
- **Quick fixes:**
 1. Add a booking or quote-request link to your Google profile.
 2. Add 30+ real job photos (you have 18).

Distance from the searcher is part of how Google ranks Maps results, and you can't change it. What you can change: relevance (categories, services, website) and prominence (reviews, photos, activity).

4. What I'd fix first

1. **Add a booking or quote-request link** to your Google profile (your contact/quote page works if you don't use online booking). (5 min)
2. **Photos: 18 → 50+.** Real before/after jobs, trucks, team and shop, uploaded steadily rather than all at once. (ongoing)

No one can guarantee rankings. These fixes target what you control.

How this was measured

- **Google Maps rankings:** DataForSEO Google Maps API, desktop, English, Google location "Cincinnati, OH" (downtown point), "garage door repair" to depth 72, pulled **Thu Oct 8, 2026 ~4:42 PM ET**. Opener and spring searches pulled the same way.
 - Rankings move by searcher location, device and time. This is a snapshot, not a guarantee.
- **Profile data** (rating, star breakdown, photo count, categories, hours, booking link, claimed status) comes from the same Maps results.
- **Website:** homepage HTML check plus Google Lighthouse 12 on mobile (simulated slow 4G, single lab run from our server). Real visitors may see different speeds.

- Anything marked **(verify)** is an inference we couldn't confirm from the data.
