Prepared Thu Oct 8, 2026 by Josh Finer, Finer Technologies · Searches run from downtown Kansas City on Thu Oct 8, 2026, ~4:42 PM ET

The 30-second version

- **Your reviews are strong:** 5★, with 24 of your 24 reviews at 5 stars.
- **But you sit at #77 for "garage door repair"** when searched from downtown Kansas City.
 - Compared with the top 3: no LocalBusiness schema on your homepage; no tap-to-call phone link on your homepage.
- **Quick fixes:**
 1. Tighten the homepage for "garage door repair" + city.

1. Where you show up on Google Maps

Search (from downtown Kansas City)	Your position	#1
garage door repair	#77 of 146	Kansas City Garage Door Repair
garage door opener repair	#83 of 100	Precision Overhead Garage Door Service
garage door spring repair	#77 of 100	Kansas City Garage Door Repair

Grid check (25-point coverage map): not checked for this audit.

2. You vs. the top 3 ("garage door repair", downtown Kansas City)

Distance from the searcher is part of how Google ranks Maps results, and you can't change it. What you can change: relevance (categories, services, website) and prominence (reviews, photos, activity).

3. Website (mobile)

Check	Result
Page title	✔ "Garage Door Repair Kansas City Kingdom Garage Door Service Same-Day Service"
Main headline (H1)	✔ "Garage Door Repair & Installation Kansas City"
Tap-to-call link	⚠ none found on homepage
LocalBusiness schema	⚠ not found (only: WebSite)
Suburb/area coverage	⚠ homepage mentions 2 nearby suburbs (Lee's Summit, Independence)
HTTPS	✔
Mobile speed (Lighthouse lab)	Performance 56/100 · SEO 100/100 · LCP 10.0 s · page weight 1,413 KiB

4. What I'd fix first

1. **Website relevance:** add LocalBusiness schema (address, hours, area served); add an "Areas we serve" section with the suburbs you actually cover; make the phone number a tap-to-call link.

No one can guarantee rankings. These fixes target what you control.

How this was measured

- **Google Maps rankings:** DataForSEO Google Maps API, desktop, English, Google location "Kansas City, MO" (downtown point), "garage door repair" to depth 146, pulled **Thu Oct 8, 2026 ~4:42 PM ET**. Opener and spring searches pulled the same way.
 - Rankings move by searcher location, device and time. This is a snapshot, not a guarantee.
- **Profile data** (rating, star breakdown, photo count, categories, hours, booking link, claimed status) comes from the same Maps results.
- **Website:** homepage HTML check plus Google Lighthouse 12 on mobile (simulated slow 4G, single lab run from our server). Real visitors may see different speeds.

- Anything marked **(verify)** is an inference we couldn't confirm from the data.
