Prepared Thu Oct 8, 2026 by Josh Finer, Finer Technologies · Searches run from downtown Louisville on Thu Oct 8, 2026, ~4:42 PM ET

The 30-second version

- **Your reviews are strong:** 5★, with 101 of your 103 reviews at 5 stars.
- **But you sit at #29 for "garage door repair"** when searched from downtown Louisville.
 - Compared with the top 3: your profile shows weekends closed while 2 of the top 3 list 24/7; no LocalBusiness schema on your homepage; your homepage scores 26/100 for mobile speed (Lighthouse lab).
- **Quick fixes:**
 1. Tighten the homepage for "garage door repair" + city.
 2. Make sure your profile hours match when you actually answer the phone.

Distance from the searcher is part of how Google ranks Maps results, and you can't change it. What you can change: relevance (categories, services, website) and prominence (reviews, photos, activity).

3. Website (mobile)

Check	Result
Page title	✔ "Louisville Garage Door Get Reliable Garage Doors Today"
Main headline (H1)	⚠ no H1 found on homepage
Tap-to-call link	✔ 5023815530
LocalBusiness schema	⚠ not found (only: WebSite)
Suburb/area coverage	⚠ homepage mentions 0 nearby suburbs
HTTPS	✔
Mobile speed (Lighthouse lab)	Performance 26/100 · SEO 92/100 · LCP 23.9 s · page weight 23,671 KiB

4. What I'd fix first

1. **Website relevance:** change the main headline (H1) to name the service and city; add LocalBusiness schema (address, hours, area served); add an "Areas we serve" section with the suburbs you actually cover; speed up the mobile homepage (lab score 26/100).
2. **Hours:** if you take calls evenings or weekends, list those hours. Profiles shown as closed can drop out of "open now" searches. (Only list hours you really answer.)

No one can guarantee rankings. These fixes target what you control.

How this was measured

- **Google Maps rankings:** DataForSEO Google Maps API, desktop, English, Google location "Louisville, KY" (downtown point), "garage door repair" to depth 61, pulled **Thu Oct 8, 2026 ~4:42 PM ET**. Opener and spring searches pulled the same way.
 - Rankings move by searcher location, device and time. This is a snapshot, not a guarantee.
- **Profile data** (rating, star breakdown, photo count, categories, hours, booking link, claimed status) comes from the same Maps results.
- **Website:** homepage HTML check plus Google Lighthouse 12 on mobile (simulated slow 4G, single lab run from our server). Real visitors may see different speeds.

- Anything marked **(verify)** is an inference we couldn't confirm from the data.
