Prepared Thu Oct 8, 2026 by Josh Finer, Finer Technologies · Searches run from downtown Cleveland on Thu Oct 8, 2026, ~4:42 PM ET

The 30-second version

- **Your reviews are strong:** 4.9★, with 62 of your 63 reviews at 5 stars.
- **But you sit at #63 for "garage door repair"** when searched from downtown Cleveland.
 - Compared with the top 3: no booking link on your Google profile (1 of the 3 has one); your profile shows weekends closed while 3 of the top 3 list 24/7; your homepage title ("Garage doors Columbia Station, OH - Potter Overhead Door Inc") doesn't mention your city.
- **Quick fixes:**
 1. Add a booking or quote-request link to your Google profile.
 2. Tighten the homepage for "garage door repair" + city.
 3. Make sure your profile hours match when you actually answer the phone.

Distance from the searcher is part of how Google ranks Maps results, and you can't change it. What you can change: relevance (categories, services, website) and prominence (reviews, photos, activity).

4. What I'd fix first

1. **Add a booking or quote-request link** to your Google profile (your contact/quote page works if you don't use online booking). (5 min)
2. **Website relevance:** put "Garage Door Repair" and "Cleveland" in the homepage title; change the main headline (H1) to name the service and city; add LocalBusiness schema (address, hours, area served); add an "Areas we serve" section with the suburbs you actually cover.
3. **Hours:** if you take calls evenings or weekends, list those hours. Profiles shown as closed can drop out of "open now" searches. (Only list hours you really answer.)

No one can guarantee rankings. These fixes target what you control.

How this was measured

- **Google Maps rankings:** DataForSEO Google Maps API, desktop, English, Google location "Cleveland, OH" (downtown point), "garage door repair" to depth 109, pulled **Thu Oct 8, 2026 ~4:42 PM ET**. Opener and spring searches pulled the same way.
 - Rankings move by searcher location, device and time. This is a snapshot, not a guarantee.
- **Profile data** (rating, star breakdown, photo count, categories, hours, booking link, claimed status) comes from the same Maps results.
- **Website:** homepage HTML check plus Google Lighthouse 12 on mobile (simulated slow 4G, single lab run from our server). Real visitors may see different speeds.
- Anything marked **(verify)** is an inference we couldn't confirm from the data.
