Prepared Sat Oct 10, 2026 by Josh Finer, Finer Technologies · Search run for "chimney sweep" with Google location "Raleigh, NC"

The 30-second version

- **Your reviews are strong:** 5★ across 134 Google reviews (132 of them 5-star).
- **But you sit at #22 for "chimney sweep"** in Raleigh. #1 is Chimney Sweep & Repair Service.
  - Compared with the top 3: homepage title ("Gas Masters | Raleigh - Durham's Experts in Gas Piping,…") doesn't mention "chimney"; no LocalBusiness schema on the homepage.
- **Quick fixes:**
  1. Tighten the homepage so Google connects it to "chimney sweep" + your area.

1. You vs. the top 3 ("chimney sweep", Raleigh)

Distance from the searcher is part of how Google ranks Maps results, and you can't change it. What you can change: relevance (categories, services, website) and prominence (reviews, photos, activity).

2. Website (homepage)

Check	Result
Page title	⚠️ "Gas Masters | Raleigh - Durham's Experts in Gas Piping, Gas Logs, and Gas Fireplaces"
Main headline (H1)	⚠️ no H1 found on homepage
Tap-to-call link	✅
LocalBusiness schema	⚠️ not found
HTTPS	✅

3. What I'd fix first

1. **Website relevance:** put "Chimney Sweep" and "Raleigh" (or your home town) in the homepage title; make the main headline (H1) name the service and area; add LocalBusiness schema (name, address/area served, hours, phone).

No one can guarantee rankings. These fixes target what you control.

How this was measured

- **Google Maps ranking:** DataForSEO Google Maps API, desktop, English, Google location "Raleigh, NC", "chimney sweep" to depth 40, pulled **Sat Oct 10, 2026 ~1:45–2:10 PM ET**.
  - Rankings move by searcher location, device and time. This is a snapshot, not a guarantee.
- **Profile data** (rating, photo count, categories, hours, booking link) comes from the same Maps results.
- **Website:** homepage HTML check from our server on the same day.
- Anything marked **(verify)** is an inference we couldn't confirm from the data.
