Prepared Sat Oct 10, 2026 by Josh Finer, Finer Technologies · Search run for "tree service" with Google location "Charlotte, NC"

The 30-second version

- **Your reviews are strong:** 5★ across 403 Google reviews (403 of them 5-star).
- **But you sit at #28 for "tree service"** in Charlotte. #1 is Tree Masters.
  - Compared with the top 3: no extra Google categories (the top 3 list up to 3); no LocalBusiness schema on the homepage.
- **Quick fixes:**
  1. Add accurate extra categories to your Google profile.
  2. Tighten the homepage so Google connects it to "tree service" + your area.

1. You vs. the top 3 ("tree service", Charlotte)

	You (#28)	#1 Tree Masters	#2 Gomez Tree Service	#3 Wolf Spirit Lawn and Tree Care

Distance from the searcher is part of how Google ranks Maps results, and you can't change it. What you can change: relevance (categories, services, website) and prominence (reviews, photos, activity).

2. Website (homepage)

3. What I'd fix first

1. **Add extra categories.** You list "Tree service" only. The top 3 also use: Arborist service, Landscape designer, Lawn care service, Service establishment. Add only the ones that are true for your business. *(5 min)*
2. **Website relevance:** add LocalBusiness schema (name, address/area served, hours, phone).

No one can guarantee rankings. These fixes target what you control.

How this was measured

- **Google Maps ranking:** DataForSEO Google Maps API, desktop, English, Google location "Charlotte, NC", "tree service" to depth 40, pulled **Sat Oct 10, 2026 ~1:45–2:10 PM ET**.
  - Rankings move by searcher location, device and time. This is a snapshot, not a guarantee.
- **Profile data** (rating, photo count, categories, hours, booking link) comes from the same Maps results.
- **Website:** homepage HTML check from our server on the same day.
- Anything marked **(verify)** is an inference we couldn't confirm from the data.
